Hospital Price Transparency

Hospital Price Transparency

This technical implementation guide contains data dictionaries, CSV templates, and JSON schema for the machine readable files as required by the [Hospital Price Transparency](#) final rules (45 CFR 180).

If you are looking for the technical implementation guide for the machine readable files required by the [Transparency in Coverage](#) final rules (85 FR 72158), please go to <https://github.com/CMSgov/price-transparency-guide>.

Each Step in this Guide will start from the homepage found at:
<https://github.com/CMSgov/hospital-price-transparency>

2

The footer consists of a solid blue horizontal bar. On the left side, there are several concentric yellow circles of varying sizes, some with small dots at their centers, creating a stylized orbital or network-like pattern. On the right side, the CMS logo is displayed, featuring the letters 'CMS' in a bold, white, sans-serif font, with the full name 'CENTERS FOR MEDICARE & MEDICAID SERVICES' in a smaller, white, sans-serif font directly beneath it.

View Resources and Implementation Timeline on Homepage

Step 2: Find the Additional Resources and Implementation Timeline Sections

Additional Resources

Users should review the final rule(s) in their entirety as well as review any clarifying guidance provided on the [Hospital Price Transparency Resources](#) webpage to ensure compliance.

- [Github Issues](#) - Where people discuss issues related to the project.
- [Github Discussions](#) - Use these channels for conversational topics (for example, "How do I..." or "What do you think about..." instead of bug reports or feature requests).
- [Hospital Price Transparency Tools](#) - Link to webpage of tools to support hospitals in meeting the accessibility and MRF requirements including a MRF File Naming Wizard, a TXT File Generator, and a Validator V2.0 that tests against the required CMS template and data specifications.

Before posting a comment, issue, or question, please search through existing discussions and issues. There is a good chance that the topic in questions is already being discussed.

Policy questions can be directed to: PriceTransparencyHospitalCharges@cms.hhs.gov. Hospitals undergoing an enforcement action may direct questions to: HPTCompliance@cms.hhs.gov.

CMS Template Technical Requirements

This repository houses the required CMS templates, in a CSV "tall", CSV "wide" and JSON format, and provides the data dictionary, or technical instruction, on how hospitals must encode standard charge information into MRFs.

Schemas

The following is the technical documentation for the allowable formats:

- [CSV](#)
- [JSON](#)

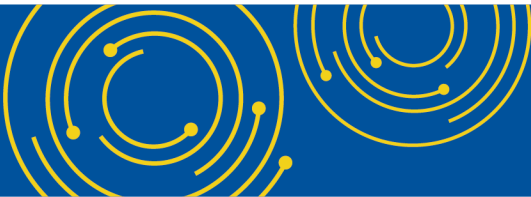

Implementation Timeline

In the [CY2024 OPPI/ASC Final Rule](#), CMS finalized a requirement for hospitals to adopt a CMS template and encode standard charge information for a subset of data elements by July 1, 2024, and all required data elements by January 1, 2025, as noted in the following tables:

CMS Template Required Data Elements and Enforcement Timeline

Hospital Price Transparency JSON Data Dictionary

Review this entire data dictionary for how to disclose data elements in JSON and find the [JSON schemas here](#) to begin building your hospital MRF.

General JSON Instructions

Developers of MRFs should generally consider and adopt established standards and industry norms for JSON files when creating the MRF. For more information on the JSON schema standards visit <https://www.json.org/json-en.html>, <https://json-schema.org/>. Additional details and instructions specific to JSON may be found in the [JSON schema](#). Below are additional reminders to avoid common errors in MRFs:

Hospital Price Transparency CSV Data Dictionary

Review this entire data dictionary for how to disclose data elements in CSV and find the [CSV "Tall" template here](#) and [CSV "Wide" template here](#) to begin building your hospital MRF.

General CSV Instructions

Developers of machine-readable files (MRFs) should generally consider and adopt established standards and industry norms for CSV files when creating the MRF. For more information on CSV standards visit <https://www.rfc-editor.org/rfc/rfc4180>.

For CSV, hospitals may choose either a "wide" or "tall" layout. The CSV MRF must be saved as plaintext data separated by commas (",") and not use other delimiters. Below are additional reminders to avoid common errors in MRFs:

The footer features the CMS logo on the right, which includes the text "CMS" in a large, bold, sans-serif font, with "CENTERS FOR MEDICARE & MEDICAID SERVICES" in a smaller font below it. On the left, there is a decorative graphic consisting of several concentric, overlapping circles and arcs in a light blue color, creating a stylized, circular pattern.

How to Sign Up and Stay Up to Date

Step 1: Click on the “Sign-up” button, enter your information, and create a username.

The screenshot shows the GitHub interface for the repository `CMSgov / hospital-price-transparency`. The repository is public and has 10 stars and 1 fork. The `Sign up` button is highlighted with a red arrow in the top right corner of the page. The repository's README is visible, featuring the Hospital Price Transparency logo and a description of the technical implementation guide.

Repository Details:
